Buddybara Aquarium

Colouring pages

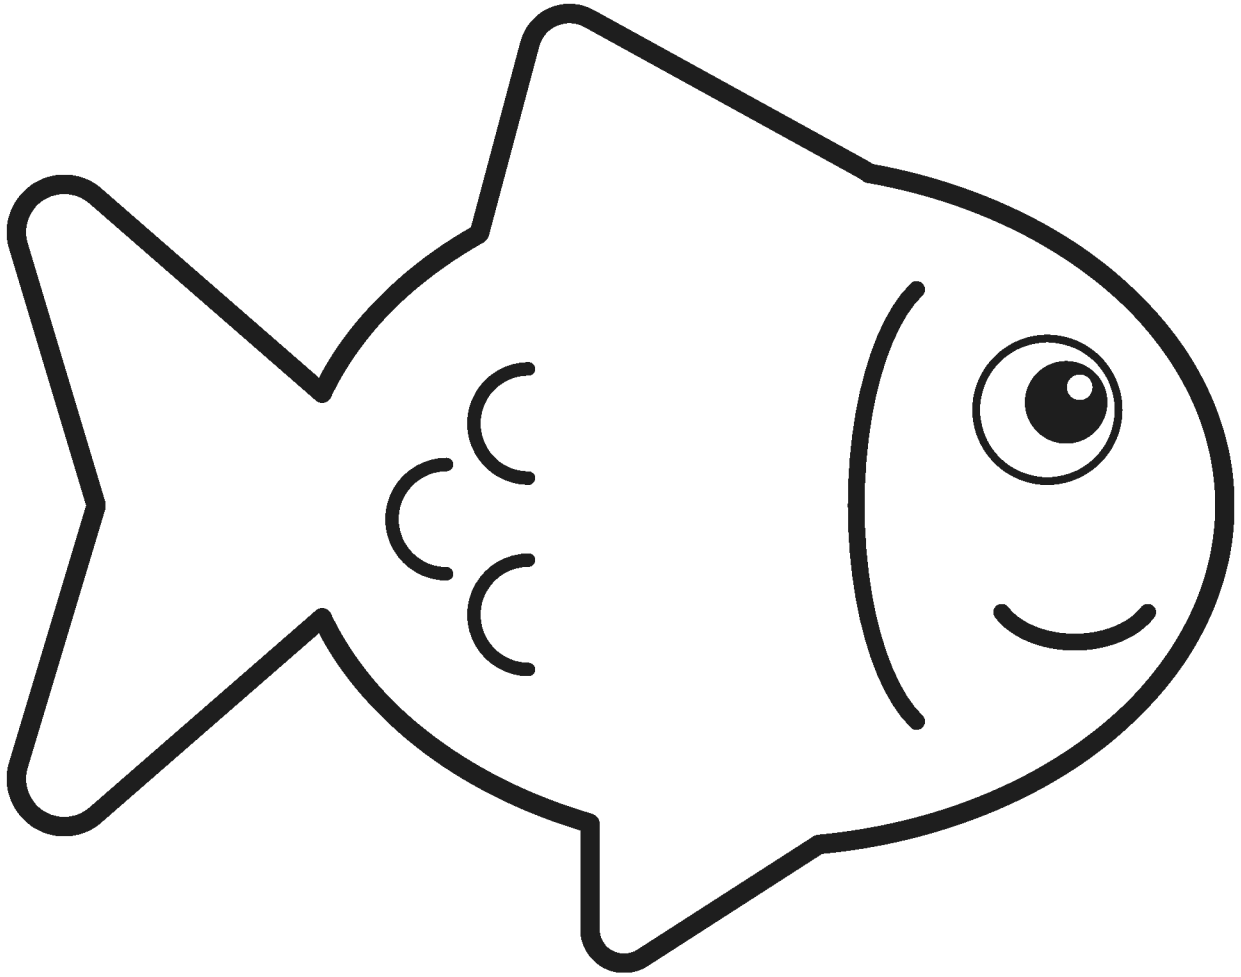

For grown-ups:

1. Print a page (any size works, A4 or Letter).
2. Your child colours the sea creature with crayons, pencils or markers. Bright, filled-in colours look best in the tank.
3. In the app, tap the camera, fit the creature inside the frame and take the picture.
4. Buddybara cuts it out and it swims into the aquarium!

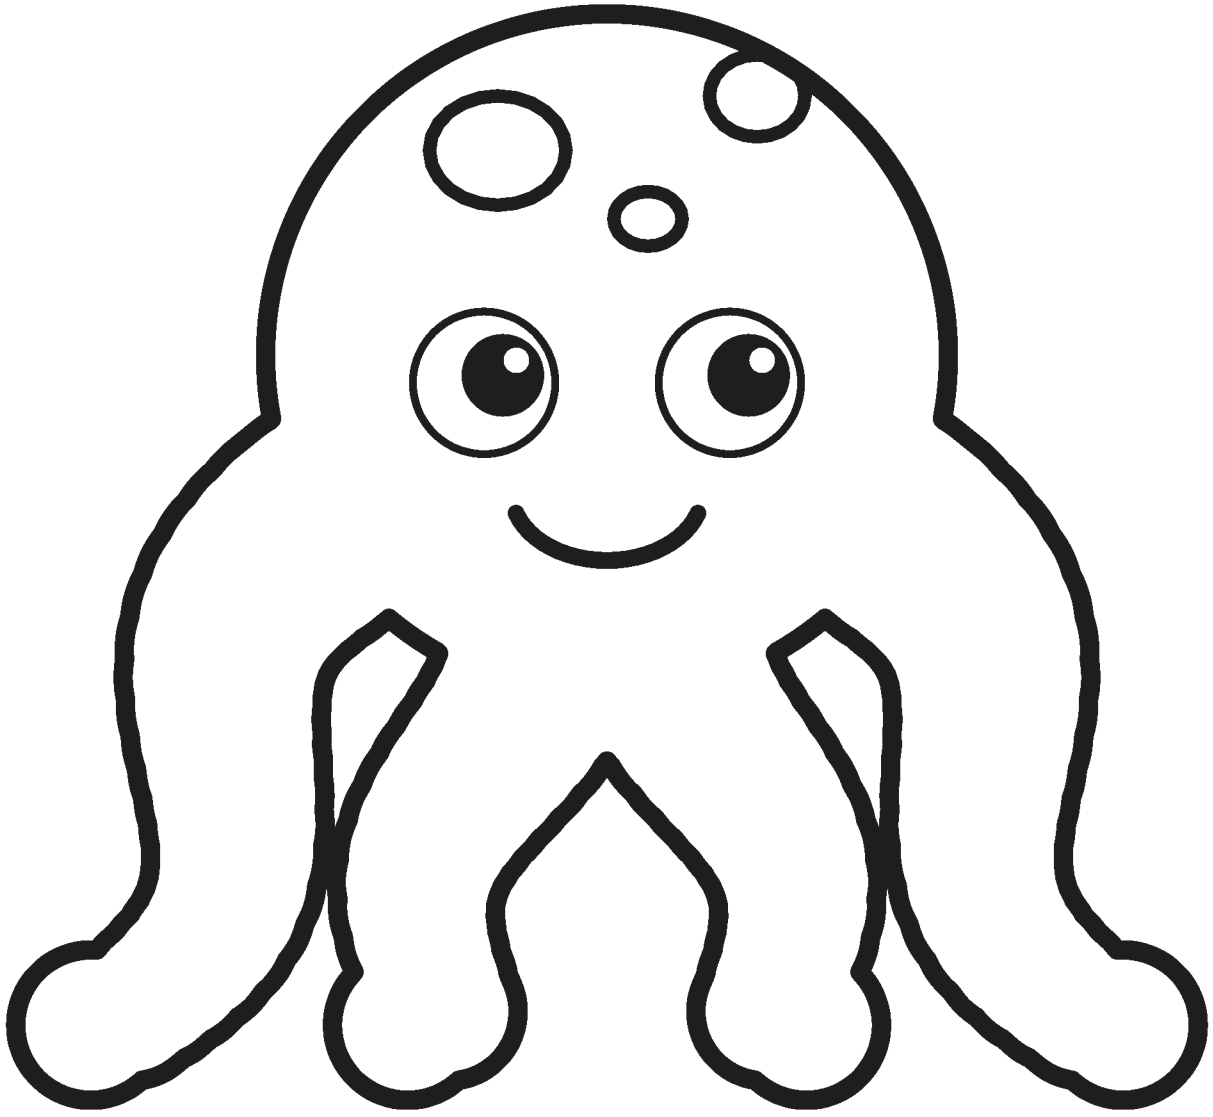

Tips: good light, no shadow of the phone over the page, and keep the paper flat.
